

GO-ERP IT Academy

PROGRAMMING INTERNSHIP

SUMMER 2018 - Vilnius

GO-ERP invites students and young IT enthusiasts, who have background in IT or programming to get valuable practical experience and participate in our Internship program. If you have basic knowledge of MS, SQL, objective programming and want to learn more - GO-ERP Internship is perfect for you!

During the Internship YOU WILL:

- Learn about and work with Microsoft Dynamics products;
- Improve existing and develop new programming skills;
- Participate in international business management system implementation, support and expansion projects;
- Get an opportunity to apply you current skills that you developed over the years and test them in a real-work environment;
- Work with professional colleagues who are open to sharing their knowledge and give you a helping hand!

BENEFITS:

- We offer a flexible working hours environment to fit around your studies.
- A reward system based on performance.

YOU ALREADY HAVE these qualifications and experience:

- Some programming knowledge and experience of SQL is a must;
- Good command of English language;
- Analytic skills;
- You are student enrolled in a university, studying programming related or programming subjects, or have other programming experience;
- You are ambitious and have a 'go-getter' attitude.

+ Advantage: some programming knowledge and experience including but not limited to C++, Microsoft Visual Studio.

BONUS -> It is possible to get rewarded based on out performance during the duration of the Internship. For extra talented individuals who successfully completed the program we are willing to offer to join our team.
