

Manual QA specialist

Strategic Staffing Solutions International client **Insoft** is a successful and innovative IT services provider in the Baltic states and United Kingdom. Founded in 2008 by experienced executives and IT professionals, company quickly grew into a renowned authority of e-government strategy and solutions. Insoft has delivered services to 20+ large government and enterprise clients.

We welcome applications from both - talented beginners and experienced **QA Specialists!** The following requirements apply to the least experienced candidates.

What you will do:

- Analyze requirement specification, document QA activities and create audit reports;
- Prepare and configure test scenarios;
- Write, execute test cases (manual) and analyze results;
- Investigate customer complaints and non-conformance issues;
- Monitor and assess risk management activities;
- Identify training needs and organize training interventions to meet quality standards;
- Use various testing tools (monitoring, analysis, automation etc.).

Requirements:

- Bachelor's degree in a relevant field (2nd and further year students are welcome too);
- Great communication skills, both verbal and written in Lithuanian / English;
- Accuracy, responsibility and motivation in your daily tasks;
- Strong attention to detail with a quality focus;
- Decision-making skills;
- You are comfortable with both working solo and in a team;
- Experience in quality assurance or similar field is a plus;
- Knowledge of tools, concepts and methodologies of QA is a plus;
- ISTQB certification or equivalent qualification is a plus.

You will find:

- Great work environment: flexible working hours, separate workspaces for teams, great team spirit;
- Strong QA community, opportunity to improve your qualification and climb the career ladder;
- Mentoring and smooth integration into well-defined and mature work processes;
- Modern solution delivery processes, including Agile (Scrum / Kanban), Confluence wiki, JIRA issue tracking;
- An opportunity to combine work with your studies.

Salary depends on experience, can be up to 2600 EUR gross/monthly.
